

# Programming by Passion

@marisbotero 

Maris Botero

Hi!

I believe in Magic every single day

What's your story?

Do not leave the world  
without telling your  
story

What is a passion? ❤

Do something that you like and  
do it well

# Find your passions

01

if you like to program, you will do it in  
your free time

02

Identify that action that will give you a  
different result

03

People who love what they do help  
others

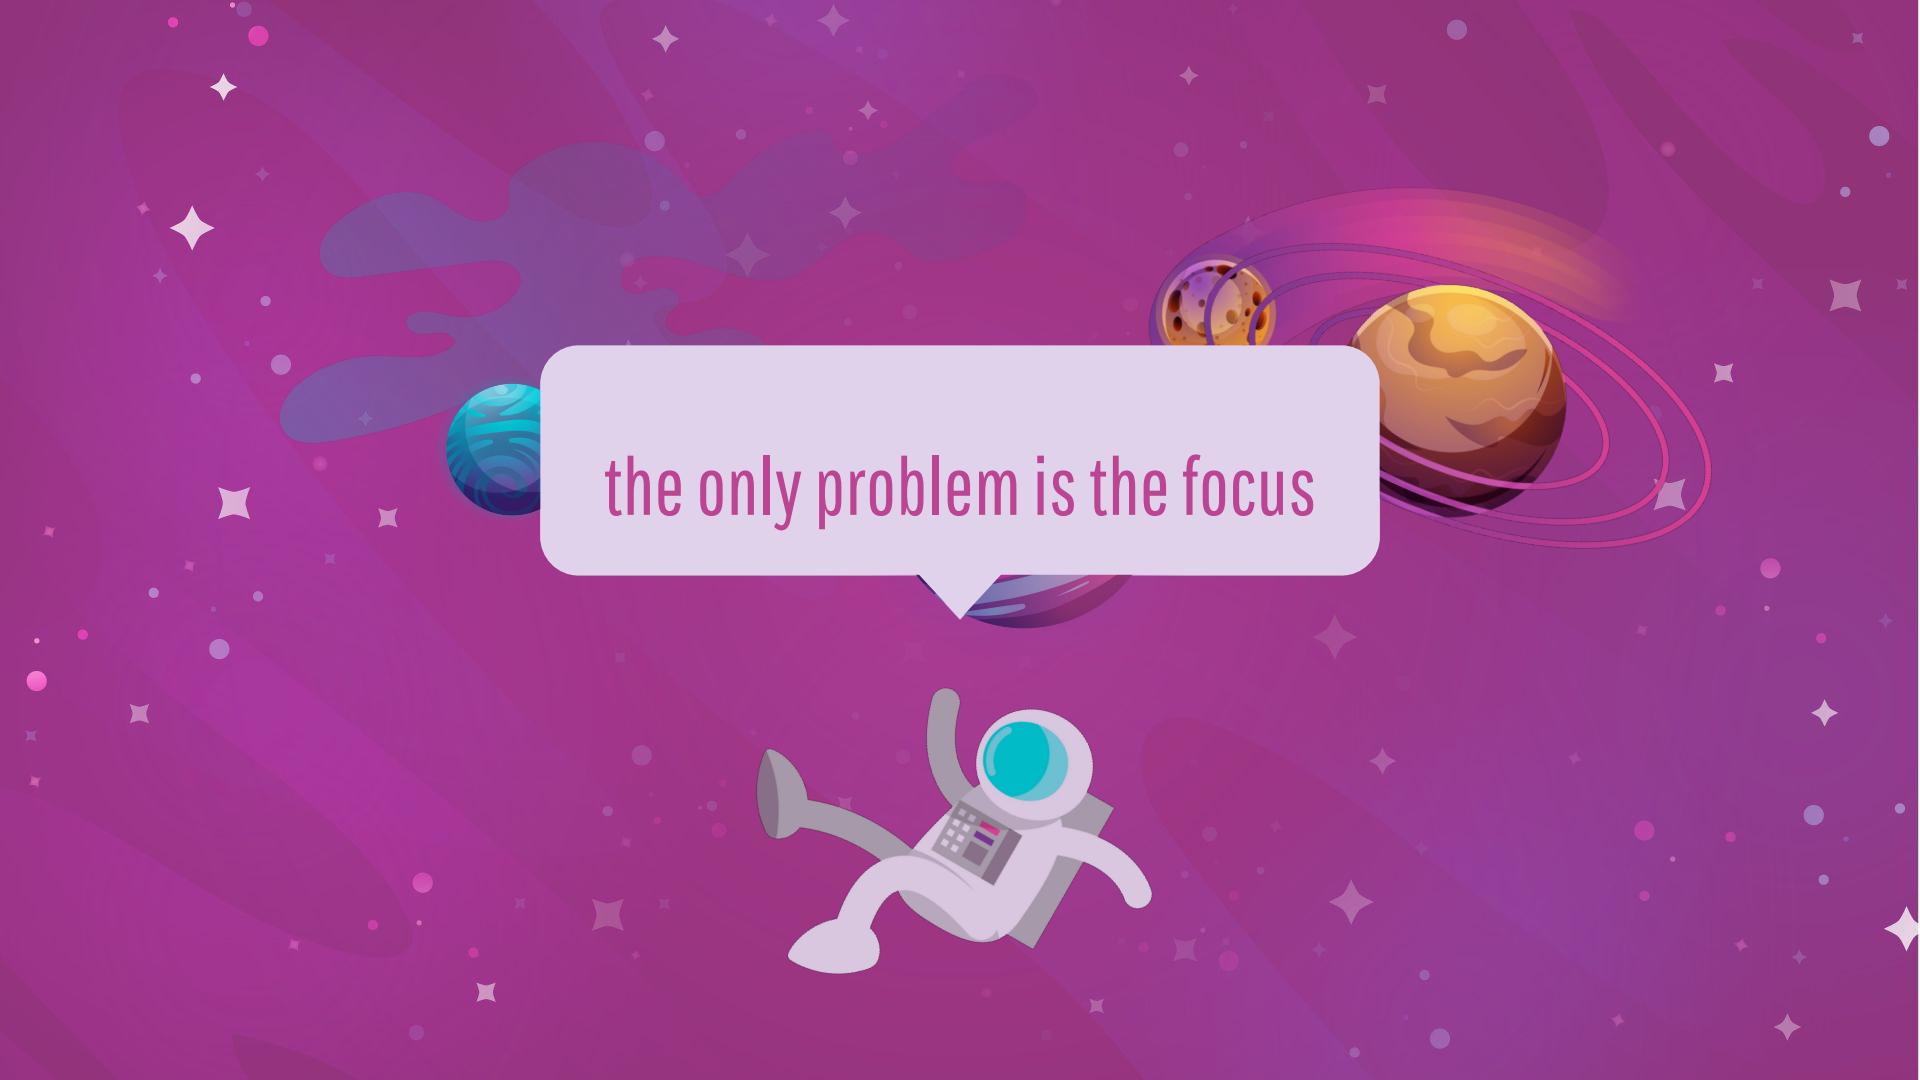

04

You have resources and possibilities

ENJOY THE RIDE 

the only problem is the focus

Give yourself the opportunity  
to believe that the best of life  
is for you

“"Here is the test to find whether  
your mission on earth is finished.  
If you're alive, it isn't."”

—Richard Bach

# TO DO

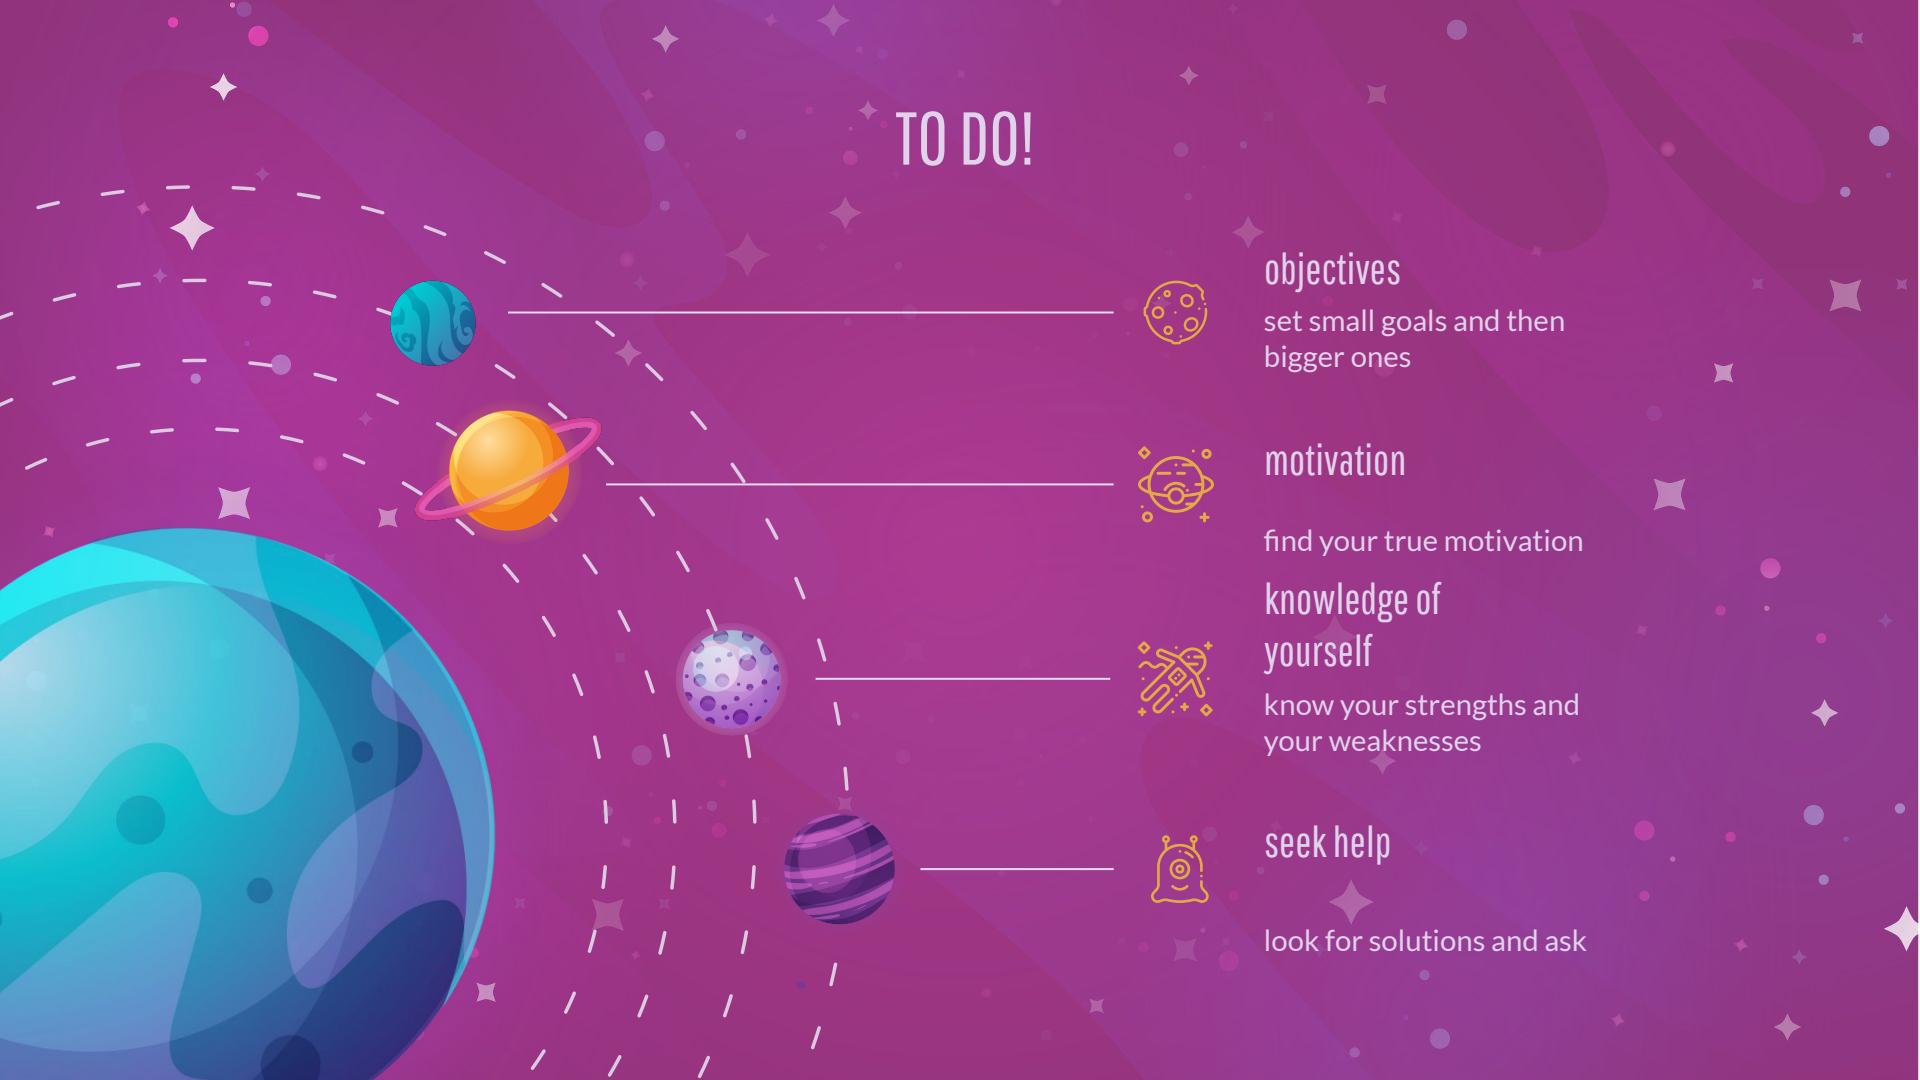

## Learn

-learn new things and create  
your own route

## Team Up

- find your tribe
- share knowledge
- respect the difference

# TO DO!

## objectives

set small goals and then bigger ones

## motivation

find your true motivation

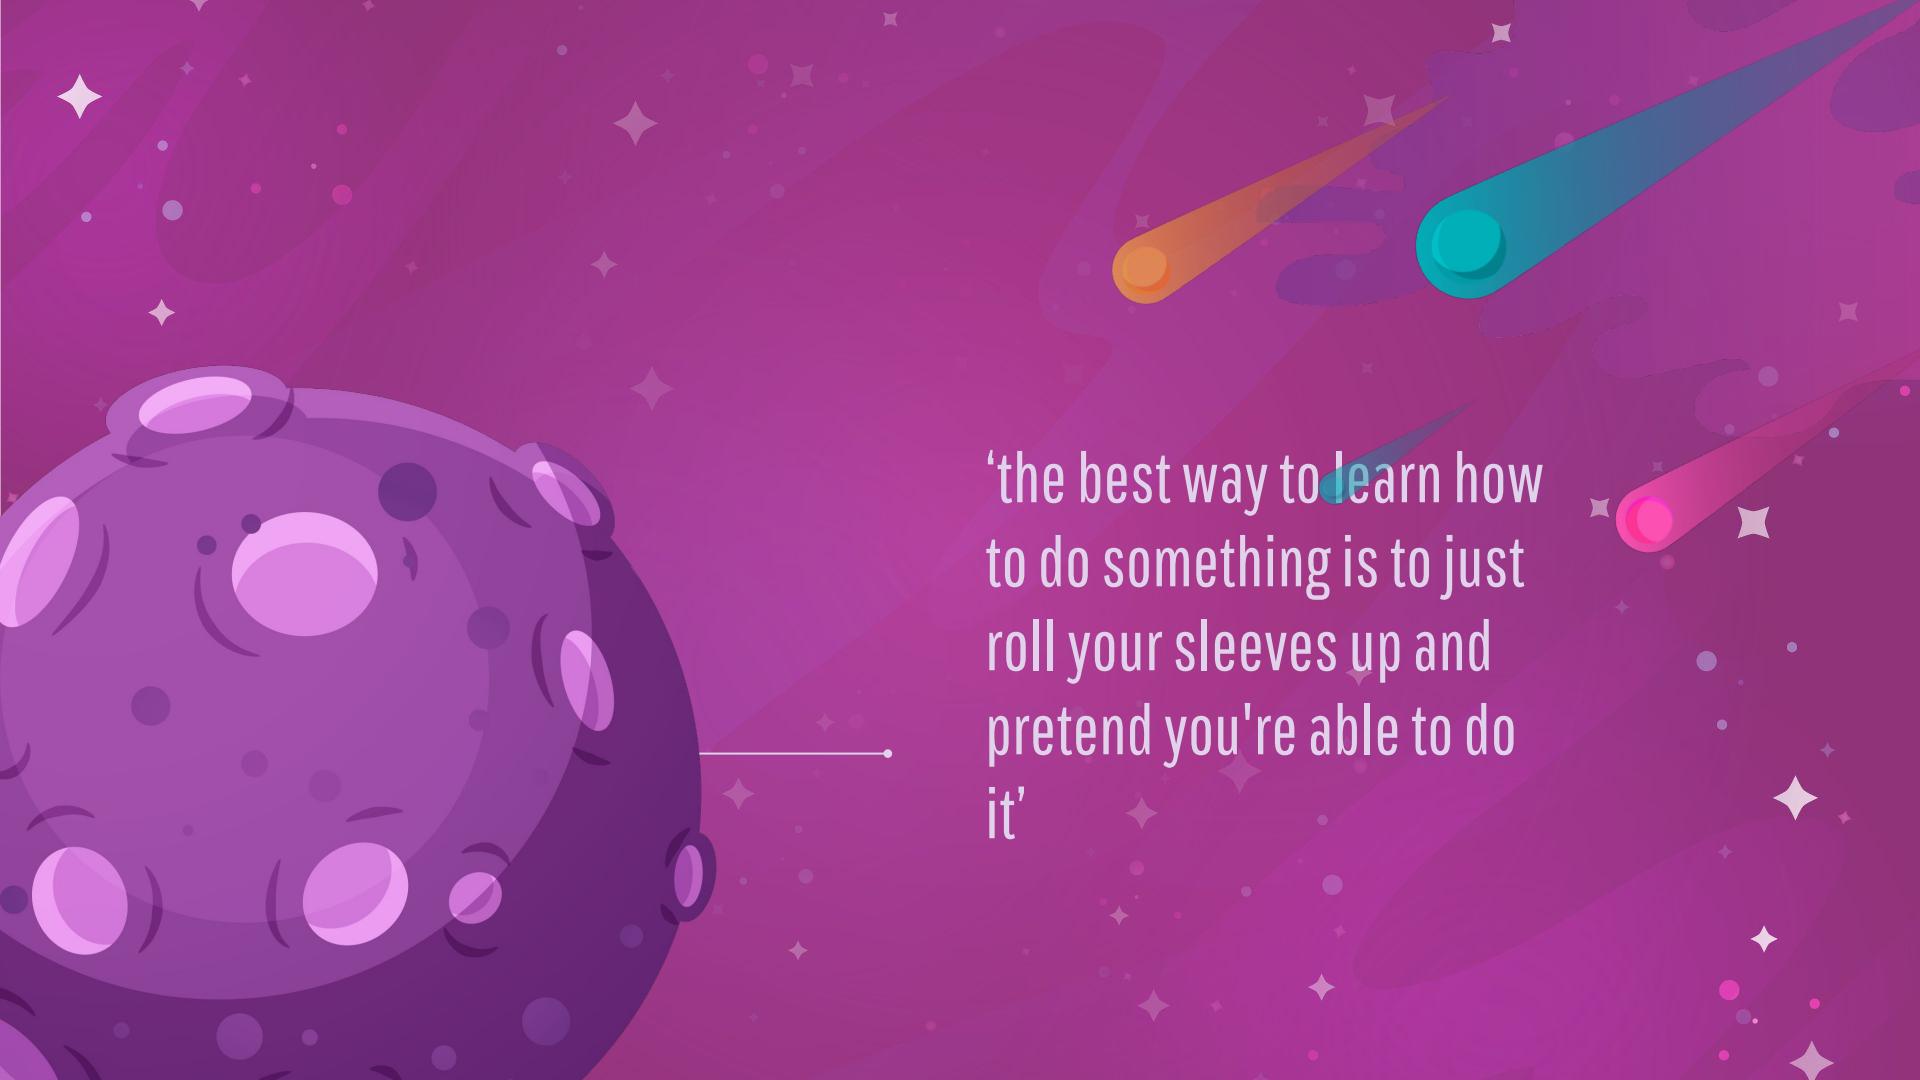

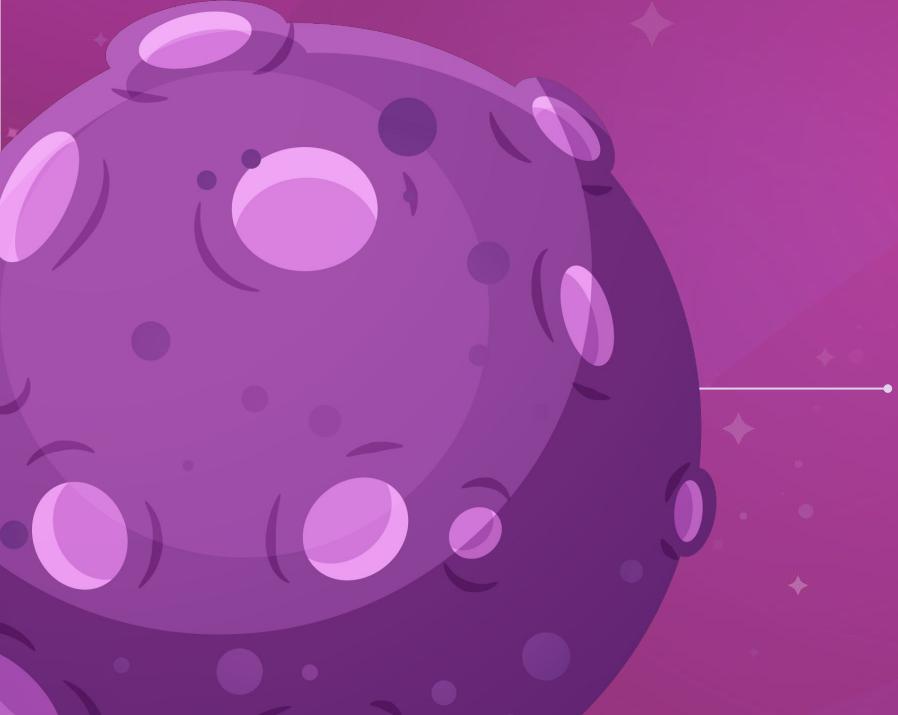

## knowledge of yourself

know your strengths and your weaknesses

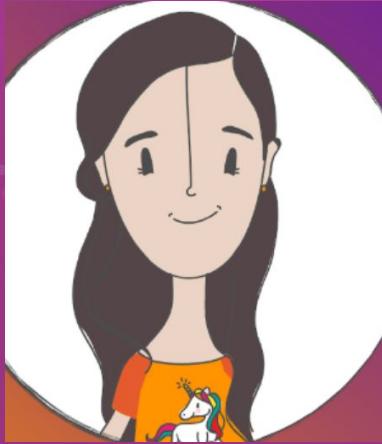

## seek help

look for solutions and ask

'the best way to learn how  
to do something is to just  
roll your sleeves up and  
pretend you're able to do  
it'

# THANKS
